MISHED EVERT WEDENFEDAY MORNING AT skaloosa, Jefferson County, Kansas.

Local Department. JOHN W. DAY, Local Editor.

APOLOGY.—The late appearance of our paper this week was occasioned by a disappointment in getting a new supply of paper, which we ordered in good time, but which we did not receive until Wednesday, our regular day of publication. We hope a similar circumstance may not occur again.

police that most of the papers that have pulished the census list showing the amount of population of the several amount of population of the several and the constant of the consta counties of the territory put Jefferson at the down as having a population of only 466. This is a great mistake. The village of Oskaloosa alone contains related the fractional quarter, and lot No. one in Sectional fractional quarter, and lot No. one in Sectional quarter qu for Jefferson County was 4,446 which must be below the exact amount, for a large number of our citizens, we understand, were missed by the census taker. We have little doubt there is a population of 5,000 in this county-quite a difference from that for which we have

with potatoes, meal, &c. We have no said First District Court. doubt there will be an abundance of provisions sent here from the States. The greatest trouble we anticipate is getting them from the river to the remote settlements. There are plenty of teams to do the hauling, but there is nothing along the route to feed on .-

publisher will commence the publica tion of a large weekly paper, to be devoted to the leading Agricultural interests of the country. The name of this new paper will be "Field Notes" and it will be a current chronicle of outdoor affairs. It will be a large double folio sheet, printed on heavy white paper, and new and clear type, in the style of book printing. Terms of subscription, single copy one year 82; five copies for 88; ten copies for \$15. The Ohio Cultivator will be continued, but will be changed from a semi-monthly to a monthly will be increased to twice its present number of pages, will contain the eream of the matter published in the weekly, and the price reduced to fifty cents a year-thus making it the Farmer's Paper for the Million. Subscriptions to either paper must be paid in advance. Address, S. D. Harris, pent of Editor and Publisher, Columbus, Ohio.

We return our thanks to O. B. Bromley, just returned from Pike's Peak, for late Denver papers. Mr. B. seems to think times are better in the gold region now, than they are here.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by depo ition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that serofulous constitutions not only suffer from scrolulous complaints, but they have far less power to withstand the attacks of other diseases; quently vast numbers perish by disorders which although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renoval. the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the

system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enurriva and Skin Diseases, St. Anthony's Fire, Rose, or Exystellas, Pimples, Pustules, Blatches, Blains and Bolls, Tumors, Tetter and Salt Rheun, Scald Head, Ringworm, RHEUMATISM, SYPHILITIC and MERCURIAL DIS EASES, DEOFST, DYSPEPSIA, DEMILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaya-rilla is to purify and regenerate this vital finid, without which sound health is impossible in

from which mankind suffer over a large part of the globe, is the consequence of a discussed action in the system, induced by the poissons misson of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and risse with the watery vapor from it. While the san is below the horizon this vapor lingers near the earth's carface, and the virus is taken with it through the lung; into the blood. There it acts as an irritating poison on the internal viscera and exercting ergans of the body. The liver becomes terpid and falls to socrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constinctional disorder. The spleen, the hidneys, and the stomach sympathise with the liver, and become disordered also. Finally, the instinct of our erganism, as if in an attempt to expel the national internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it falls.
